SUMMARY

B.Sc. Human Science graduate pursuing a PG Certification in Data Science & Analytics with AI. Skilled in Python, MySQL, Excel, Power BI, Tableau, and Machine Learning. Passionate about transforming data into meaningful insights and building data-driven solutions.

SKILLS

- Database – MySQL.
- Data Cleaning & Visualization Tools – Microsoft Excel, Microsoft Power BI, Tableau.
- Programming Language – Python (NumPy, Pandas, Matplotlib, Seaborn).
- Statistics.
- Machine Learning.

PROJECTS

Kickstarter Projects Data Insights | Tool: Excel

[GitHub](#)

- Built an interactive Excel dashboard to analyse Kickstarter project trends, funding, and success rates.
- Created KPI cards and visualizations to highlight category performance and launch trends.

FlyBuddy – The Airline Management System | Tool: MySQL

[GitHub](#)

- Developed a MySQL-based Airline Management System to manage passengers, flights, bookings, and tickets.
- Used joins and subqueries to analyse booking data and extract meaningful insights.

Indian Tourism Intelligence | Tool: Microsoft Power BI

[GitHub](#)

- Analysed Indian tourism data (2020–2025) to identify visitor, revenue, and seasonal trends.
- Built interactive Power BI dashboards using DAX to analyse destinations, bookings, and visitor preferences.

Road Accident Analysis | Tool: Tableau

[GitHub](#)

- Analysed 1.95M+ road accident records (2019–2022) to track accidents, fatalities, severity, and YoY trends.
- Built an interactive Tableau dashboard to identify accident patterns across vehicles, weather, road conditions, and locations.

Web Scraping Project | Tool: Python, Power BI

[GitHub](#)

- Scraped and analysed 960 Flipkart laptop listings using Python, BeautifulSoup, and Pandas.
- Built a Power BI dashboard to analyse pricing, discounts, brand performance, and customer ratings.

Mobile Data Usage Prediction | Tool: Python, Machine Learning, Streamlit

[GitHub](#)

- Developing an ML model to predict monthly mobile data usage based on user activity patterns.
- Building a Streamlit-based recommendation system to suggest suitable data plans.

EDUCATION

Bachelor of Science in Human Science

Mumbai University

9.77 CGPA

2025

HSC (12th)

Maharashtra State Board

64.50%

2022

SSC (10th)

Maharashtra State Board

87.80%

2020

COURSE

Masters in Data Science and Analytics with AI

IT Vedant Education Institution

Pursuing

2026

CERTIFICATION

- Advanced Excel, IT Vedant Education Institution.
- MySQL Mastery, IT Vedant Education Institution.
- Power BI, IT Vedant Education Institution.
- Tableau Essentials, IT Vedant Education Institution.
- Python Essential for Data Science, IT Vedant Education Institution.
- NumPy and Statistical Analysis, IT Vedant Education Institution.
- Applied Data Analysis with Python, IT Vedant Education Institution.
- Machine Learning Mastery, IT Vedant Education Institution.

Achievements

- Monsoon Hackathon 2026
Won 3rd Prize at Monsoon Hackathon 2026 (I.T. Vedant) for building a Power BI-based Flood Prediction Analysis dashboard as part of a 4-member team.
